Southwest Gas Increases The Quarterly Common Stock Dividend And Declares Second Quarter 2013 Dividend

February 27, 2013

LAS VEGAS, Feb. 27, 2013 /PRNewswire/ -- The Board of Directors for Southwest Gas Corporation (NYSE: SWX) has increased the **quarterly** common stock dividend from \$.295 per share to **\$.33** per share and has declared the following second quarter cash dividend:

Common Stock

Payable	June 3, 2013
Of Record	May 15, 2013
Dividend	\$.33 per share

The dividend equates to **\$1.32** per share, a 14 cent or approximately 12 percent increase, on an annualized basis. The Company has paid quarterly dividends continuously since going public in 1956, and has raised its dividend in each of the past seven years. President and Chief Executive Officer Jeffrey Shaw noted, "We are pleased with the improved and stable performance of our revenues, cash flows, and capital structure. These factors, combined with the Company's strong operating performance, have positioned us to again increase the dividend. Dividend increases are necessary to facilitate competitive and reasonable returns for our shareholders. Over time, the Board intends to increase the dividend such that our payout ratio approaches our local distribution company peer group average while maintaining our strong credit ratings and our ability to effectively fund future rate base growth. The timing and amount of any increases would be based upon the Board's continual review of our dividend rate in the context of the performance of the Company's two operating segments and their future growth prospects."
