

Southwest Gas Holdings Releases 2025 Sustainability Report

September 8, 2026

Report highlights sustainability in action through investments that strengthen safety and reliability, improve customer experience, and support communities

LAS VEGAS, Sept. 8, 2026 /PRNewswire/ -- Southwest Gas Holdings, Inc. (NYSE: SWX) ("Southwest Gas" or "Company") has released its 2025 Sustainability Report ("2025 Report"), "Fueling Communities. Creating Enduring Value.", highlighting the Company's progress in safety, customer service, environmental stewardship, technology, and community investment.

The 2025 Report reflects Southwest Gas' first full year of sustainability reporting following the separation of Centuri Holdings, Inc., into an independent utility infrastructure company. As a premier, fully regulated natural gas business, Southwest Gas remains focused on delivering safe, reliable and affordable natural gas service that supports economic development and strengthens the communities it serves.

"The past year marked a major milestone for the Company and highlighted not only our operational excellence and financial discipline, but also our commitment to the values that guide us every day: Safety First, Integrity in All That We Do, Relationships Matter, and Sustainability in Action," said Justin Brown, President and Chief Executive Officer of Southwest Gas. "These principles shape how we serve our customers, support our employees, strengthen our communities, and create long-term value for our stakeholders."

Key achievements highlighted in the report are:

- **Improved employee safety performance**, reducing the Total Recordable Incident Rate by 17% and the Days Away, Restricted or Transferred rate by 37% year over year.
- **Achieved record emergency response performance**, responding to 79.2% of emergencies within 30 minutes.
- **Ranked No. 1 in customer satisfaction** with Residential Natural Gas Service in the West among Large Utilities by J.D. Power for the sixth consecutive year.
- **Strengthened system monitoring and cybersecurity** through completion of a major modernization project, improving Southwest Gas' ability to monitor its natural gas system in real time.
- **Captured 3.37 million standard cubic feet of natural gas** using vacuum and compression technology, avoiding an estimated 191 metric tons of carbon dioxide equivalent emissions.
- **Met the Company's goal of reducing emissions by 20% by 2025**, achieving a 33.7% reduction from its fleet and building facilities compared with the 2015 baseline.
- **Reduced excavation damages by 7.7% since 2021**, helping prevent natural gas releases and supporting the safety and reliability of its natural gas system.
- **Invested \$2.5 million through the Southwest Gas Foundation** in 362 nonprofit and charitable organizations supporting communities across the Company's service territory.
- **Contributed more than 4,500 employee volunteer hours** to nonprofits and community initiatives, while employees pledged approximately \$2.7 million through the Company's FUEL for LIFE employee giving program.
- **Doubled per-block greenhouse gas emissions offsets in Nevada** for participating customers in the Move2Zero program and surpassed 200,000 therms in total program offsets since 2022.

Sustainability is embedded throughout Southwest Gas' business strategy and governance framework. Oversight is provided by the Board of Directors and Company leadership, helping ensure accountability while supporting safe operations, customer service excellence, employee development, and long-term community investment.
